NEW SERIES: VOLUME 12; No. 31

BARBOURVILLE, KY., FRIDAY, APRIL 2, 1922

ONE DOLLAR AND FIFTY CENTS A YEAR IN ADVANCE

CHANCY-SMITH

The marriage of Mr. H. W. Smith of Bluffton, Ga., and Miss Augusta Chancey, of Blakely, Ga., was consummated at the home of Dr. King pastor of the Baptist Church of that city, Tuesday, May 23rd, with a large number of friends and relatives of the bride present at the ceremony. Friends of Mr. Smith from Bluffton were also in attendance.

The bride taught in the intermediate department of the public schools at Bluffton, Ga., where Mr. Smith was also a teacher. After the ceremony the happy couple left for Albany and Atlanta, Ga., and later came to Pineville, Ky., where they will remain for the summer.

Mr. and Mrs. Smith paid a visit to relatives and friends in Barbourville Wednesday. The many friends of Mr. Smith will wish the young couple every happiness in their new estate.

R. L. BOWMAN MAKES CHANGE

Ferdinand, Ind., May 23, 1922. Mountain Advocate, Barbourville, Ky. Gentlemen:

Enclosed find money order for \$1.50, for one year's subscription to your paper, starting at once.

I have just recently resigned a position with the Preston Motors Corporation, of Birmingham, Ala. and have accepted a position with the Curtis Motor Car Co. which is a large concern. We build the lowest priced six-cylinder on the market and are building thirty-five cars a day. The automobile business is better today than it has been for years and we can see an increase every day.

Hoping to see Barbourville some day a town with a lot of large factories, with best wishes, I beg to remain,

Very truly yours,
R. L. Bowman.

UNION COLLEGE CONTEST

Thursday of last week a piano contest was staged at Union College the contestants being Misses Mary Michael, Ruth Bowman, Catherine Dishman, Violet Humfleet, Margaret Wilson, Sarah Kelly, Ruth Owens and James Booze. Little Gail Franklin was a refreshing number at the opening and during the program and Misses Catherine Dishman and Margaret Wilson played the duo: Bellario Fantasia, by Donsetti, at its close.

All the contestants did splendidly and the decision was very close, the final addition showing Miss Margaret Wilson, medalist, with 289 points, Miss Ruth Owens, 281½ and Sarah Kelly 279½ points. Union College is certainly doing fine by its musical education.

REWARD

Lost, one yellow bird dog pup, with white face and white feet. 9 weeks old. Reward of \$5.00 for information leading to recovery. 31-2tp James S. Golden.

ROAD SURVEY

Surveys for the purpose of developing information showing the close relation between the modern highway and the church, the school, the public health, etc., are soon to be undertaken by Modern Highways, Inc., recently formed and of which Senator Richard P. Ernest of Kentucky is president. In these surveys the assistance of government bureaus, national associations and state officers will be solicited.

This association as incorporated is not to operate for profit. Its work will be to assist constructively in behalf of the good roads movement, and give aid to individuals interested in it. This assistance will be extended along broad and unselfish lines. Modern Highways, Inc., will not interest itself on its own behalf in the promotion of any one specific interest or proposed route.

Information gathered relative to the highway, its history in the past, its possibilities in the future, and steps being taken to forward the interests of all worthy movements, will be furnished on request to roads and other associations and to individuals. Assistance will be given other bodies interested in the economic phases of the highway movement.

Senator Ernest is a loyal supporter of worthy good roads movements. Those associated with him in Modern Highways, Inc., also have pioneered in this work. The Vice-presidents include former Gov. John H. Bartlett, of New Hampshire, now first assistant postmaster general; Congressman Peter G. Ten Eyck, of the Albany district, prominently mentioned for the democratic nomination for governor of New York, and Dr. Wm. Gerry Morgan, a leading specialist, of Washington.

Lee Lamar Robinson, newspaper man, and now Secretary to Senator Ernest, is the executive director of the association and Warren Akers of Washington, prominent in business and capital affairs, is general secretary.

OVERALL FACTORY TO BE ENLARGED

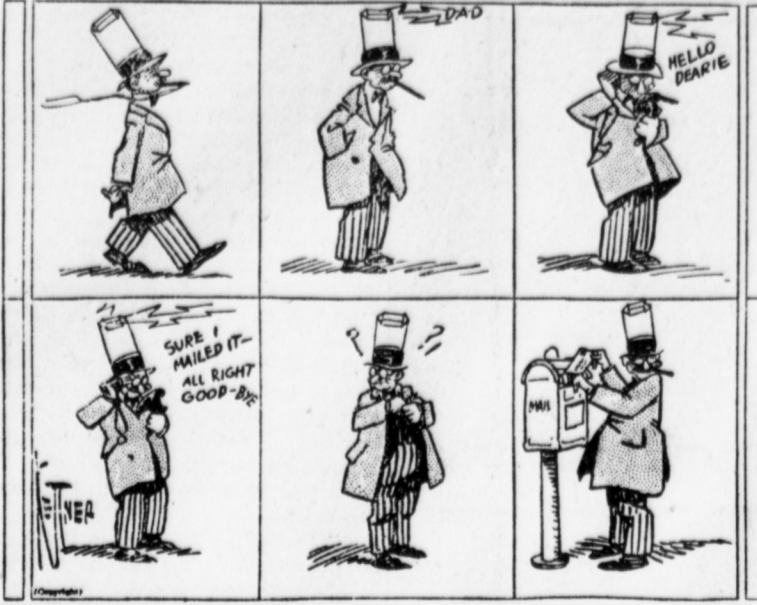

The Overall Factory is meeting with such a demand for its output that the quarters are about to be enlarged to make more storage and floor space. A loft will be built over the store occupied by Mrs. Fanny Lawson and connected by a passageway with the present factory. This will greatly increase the space and in no way detract from the attractiveness of the Ladies Shop.

WHAT WE ARE LOSING

J. H. Catron, Jr., of the Corbin Buick Co., in speaking to his brother Frank, of this city, stated that droves of tourists are going via Williamsburg and Jellico and that they are anxiously enquiring as to this route. Money being spilled elsewhere that might be coming to Knox County.

He is young who feels young.

This is a Wonderful Age

RURAL DISTRICTS FAILING IN PREVENTING DISEASE

Speaking before the American Medical Association at St. Louis last week, Dr. A. J. Warren, of Topeka, Kansas said that rural communities are failing to progress as they are expected to in the prevention of disease such as typhoid, small-pox, tuberculosis and diphtheria, "which are excellently controlled in American cities." With equal expenditures and efficient control the results should be as good as those in the cities. "Health officers are frequently regarded in the same manner as other holders of government positions, without taking into account the technical training required to qualify for their positions."

All of which is apropos to a condition now existing in Knox County. To all intents and purposes we do not have a health officer, since the present incumbent is paid but \$100 per year. We hold no brief for Dr. Albright but we do for the lives that are threatened and the lives that will be lost thru having no one to assume control during epidemics which come every year, killing some at the start and infecting and killing others because some one with authority to quarantine and guide in the crisis is lacking.

Knox County is looking after the welfare of its hogs, chickens, corn, etc. and quite rightly too, but unless it adopts an enlightened system which looks after the health and sanitary welfare of its people it is failing in its larger duty.

Knox County, for any reason it may care to advance, cannot afford to have laid at its door the dead bodies of little children as well as those of ripe years.

Let us remember that one of the great works of the Master of Men was to heal the sick. It is just as much a duty today as it was when he walked the earth.

The Creator runs the universe on law and unless we conform to the law of prevention as well as the law of cure, we are responsible and not He, when our loved ones are taken away. One of our pet blasphemies is to say "The Lord gave, the Lord taketh away" when our own law-breaking tendency has done the killing. Microbes kill the just as well as the unjust.

JUDGE JOHNSON NOT A CANDIDATE FOR GOVERNOR

Judge Johnson, in a statement given to The London Sentinel-Echo, says:

"I am not a candidate for Governor. I have no ambition to hold any office except the one I am now trying to fill. In no event would I break faith with the noble men and women whose heroic efforts places me in this exalted position. I do not know of a more important work in which I could engage. Nothing short of death can stop me in this fight for law-enforcement."

It is good to know that Judge Johnson is not to be seduced from his present office by the prospect of the governorship or other honors. He is now doing a work which stands out as a pre-eminent success and as a shining example of how to curb that lawlessness which has brought disgrace on Kentucky as well as many other states. As governor, it is a question whether he could do as good work for his state and the nation at large.

U. C. BACCALAUREATE SERVICE

The Union College Baccalaureate service at the Methodist Episcopal Church Sunday was very beautiful and impressive.

Dr. D. Edgar Allen, of the Baptist Church gave the invocation. The music was all of a high order.

Dr. Thos. B. Roberts, of Harlan and formerly of Lexington, preached the sermon using as his text "God's Masterpiece." It was a thoughtful effort, tending to show that each young man and young woman is a king and queen who has the power of self crowning thru an enlightened manhood or womanhood using the personality and power each possesses.

The speaker warned against seeking material wealth, unless accompanied by the search for the higher and more lasting things that pertain to God and His righteousness.

The fleecy cloud may be drawn from a mud puddle by the rays of a dominant sun and the life sublime may spring from a most unfavorable environment.

Touching on Mr. Bryan's visit to Kentucky to instruct the General Assembly in what it should do, the speaker resented this action and rejoiced that his efforts had failed. "The school master has his task, the preacher his task and the politician his task," he said. He considers it a great thing that the Creator worked out His plans by quiet process of law, even tho it took millions of years to make the coal, the iron and the universe in which we live. The thing that counts is not "how I came here, but why I am here and where I am going." We are subject to the processes of a kind, loving Father who wishes to deepen the soul until we are crowned with glory.

Dr. Roberts urged his hearers to take pattern after Moses the Lawgiver, who "endured as seeing God as being invisible." Moses rested on the message that came to him from God.

Systems of philosophies and cults are but the by-paths which should lead to the main path of Jesus, that runs to the mountain top which overtops all and shows the way to safety.

DAUGHTERS OF AMERICA ORGANIZED AT SWAN POND

On March 20, Councillor Aloise Ernest, of Louisville, and Mrs. Emma M. Whiting, of Newport, Ky., arrived at Swan Pond to bring into existence a lodge of the Daughters of America, which is an auxiliary of the Jr. O. U. A. M. Thenew council will bear the name of Virginia Dare, No. 26. This is the first of its kind organized in Knox County. Thirty-seven members were initiated and a larger class initiation was held the Friday following.

Officers elected were, Mrs. D. R. West, Councillor; Miss Mattie Shelton, Associate; Miss Amanda Hem-bree, V. C.; Wm. J. Miller, Jr., Past Councillor and Representative; Miss Mattie Melton, Recording Secretary; Miss Lola Mae Miller, F. C.; Ed Hampton, Treasurer.

We invite all ladies between the ages of 16 and 50 years, white and American, in our vicinity to apply for membership who may wish to join and all Junior Mechanics.

Wm. J. MILLER, Deputy State Organizer.

KIWANIS MEETING

On Friday night Kiwanians enjoyed the hospitality of the Jones Hotel, Jim Archer contributing the attendance prize, won by W. R. Lay—an Eversharp pencil with which Judge will run the bank. The silent boost was one rather out of the common being a rose for every member present, contributed by T. W. Minton. Speakers of the evening were Rev. E. H. Hudson, of Beeville Texas, who is home on a visit, Dr. G. M. Klepfer, Judge S. B. Dishman and T. W. Minton. G. M. Richards kept the singing going in good order and an hour was spent most pleasantly.

Rev. E. H. Hudson told a yarn about attending a meeting of Presbyterian preachers at Corpus Christi, Texas, how he strayed into a Kiwanis meeting and his astonishment at the actions and songs of the supposed preachers. He delivered his talk to the Kiwanis and was then called to the preachers meeting where he delivered the same address over again.

Dr. Klepfer spoke on the opportunity for the building of spiritual values among our young people and said the tangible things, while valuable, are not to be compared with spiritual values.

Judge S. B. Dishman urged that Kiwanis get behind the road movement to the end that we remove the curse of bad roads.

T. W. Minton said that when he came here several years ago there were many conditions that could be knocked but that now things are greatly improved and he, for one, is a constant booster of Barbourville.

Ladies Night is tonight, at Union College, Dr. E. T. Franklin as host.

B. B. I. RECITAL

On Thursday evening of last week Miss Mattie Trabue, director of the Department of Music, B. B. I., presented her pupils in a recital which was largely attended. The first of the program was given over to the little folks with whom Miss Trabue always has wonderful success and they all did well. The four young ladies at two pianos produced pleasing harmonies while three boys on one piano did equally well. The songs were well rendered and a very pleasant evening was passed by all present.

CHRISTIAN CHURCH

Sunday, June 4th, 1922

Bible School at 9:45, Morning worship and Communion at 11 o'clock. Subject: "Saints and Salt."

Senior Division Christian Endeavor at 6:30.

Evening service 7:45. Missionary Pageant with forty young people in costume.

Mack Hammons is pulling down his fire swept home and will build a new and much better house. S. H. Hammons will build a home near the depot.

MEMORIAL DAY SERVICE

Under a perfect blue sky up the aisle of green trees the soldier boys carried the Stars and Stripes of the G. A. R. and the deep blue banner of the American Legion from the Court House to the Methodist church on Memorial Day. The G. A. R. Veterans led the column.

The band played while the people were being seated and then all sang "America." Chaplain Ford led in a prayer of invocation which was followed by "Onward Christian Soldiers," sung by the congregation.

Rev. S. F. Kelly spoke feelingly to his few remaining comrades of the Civil War and expressed their assurance that they are leaving the flag where it will be revered and loyally protected when they leave it in the care of the young soldier of today who walks with eager and buoyant step. The G. A. R. was organized primarily to take care of the comrades graves and to keep in mind their deeds in making this a united country. The North, East, South and West will always uphold the flag which has always proved so dear to the American people.

Mrs. Geo. F. Tinsley read "In Flanders Field" in a most appealing manner after giving a brief history of its composition. Mrs. Thos. B. Kaufman sang "Christ in Flanders" in a simple and pleasing manner.

Dr. G. M. Klepfer, as speaker of the day made a splendid address saying in part that this is a day of memories and we should speak softly and tread tenderly as we walk among memories of the past. He said we are now trying to give expression to the idealism of the present day while holding on to the memories of the past. He mentioned the different vitalizing principles which lie at the heart of the different days we honor—Memorial Day being a prompt and unhesitating response of patriotism. The ideal of the soldier of the World War was that it was a war to end wars. The Washington Conference also held to this ideal. The speaker paid a tribute to the common soldier saying it takes an uncommon man to make a common soldier who does the uncommon things that make this uncommon country what it is.

The band rendered several patriotic selections and the service closed with the benediction pronounced by Rev. D. Edgar Allen.

At 1:30 the American Legion and National Guard assembled at the Court House and marched to the cemetery where a large number had gathered for the decoration of the graves of our heroic dead. Chaplain Ford led in prayer, Commander Mayhew called the roll, the salute was fired and then detachments of troops decorated all the graves of fallen comrades.

Ed Hudson, D. D., of Beeville, Texas, was in town over the week end while on his return from General Assembly of the Presbyterian Church which was held in Charleston, Va. This is the first time Mr. Hudson has been back to his home town 12 ten years.

Our First Aim

Is to afford absolute safety for your money.

Our second, to serve you promptly and helpfully at all times, and to render you every assistance consistent with sound banking practice.

Careful, conservative management, Capital and Surplus of \$100,000.00, and the Federal supervision which comes of FEDERAL RESERVE MEMBERSHIP assure the first.

Our record of twenty years of successful service shows the ideals to which we attain in the second.

BRANCH OF C. & M. R. R.
IN FLORIDA

Judge S. B. Dishman insists that
Col. C. F. Heidrick has established
a branch of the C. & M. railway in
Florida and as a proof thereof he
shows a photo of Col. Heidrick driv-
ing a donkey which in turn is draw-
ing a cart carrying the vegetables
that are making Florida as famous
as its beer did for Milwaukee. There
is a dash of elan evident both in
the attitude of Col. Heidrick and the
moke which suggests speed and this
is explained by Judge Dishman as
follows: It appears that in the same
neighborhood there lives a lady who
makes a poor but honest living by
selling vegetables. Along came Col.
Heidrick, full of ennui after a spell
of idleness. A job at last! Quickly
making a bargain with the peddler
lady, he chortled to the moke and
made his round selling the succu-
lent vegetables the cart contained.
It is hinted by Judge Dishman that
when Col. Heidrick gets tired of
running a railroad he will betake
himself to some sylvan retreat, buy
a spade, raise cane and other veg-
etables thereon. It may be that the
Judge has a piece of land in the
heart of the Everglades he wishes
to sell the Colonel. Since he failed
to take us in his confidence we are
only surmising. A neutral friend
of parties of the first and second part,
we would suggest that Judge Dish-
man sell the land, with full riparian
rights and that Col. Heidrick buy a
diving suit.

The whole scene, a poor but honest
vegetable lady, the picturesque
burrito, Judge Dishman's beautiful
semi-tropical residence and Col.
Heidrick as a prosperous rhu-
larb and artichoke vendor, smacks
very strongly of a real estate adver-
tisement. You never can tell with Flor-
idans or semi-Floridans. They sell
the earth and the waters on top of
the earth.

RESOLUTIONS

Death has removed from our
midst one of our most beloved and
highly esteemed sisters, Mrs. Sallie
Lytle Hatton.

She was a devoted member of the
Christian Church, Ladies Aid and
also the Ladies Bible Class and was
highly appreciated as a teacher
when able to attend.

She was a woman of high attain-
ment intellectually. Many acts of
charity grace her life. It was her
joy to do kind deeds and say en-
couraging words when the oppor-
tunity came. She delighted to con-
tribute to the happiness of others.
We are deeply grateful for the joy,
beauty and Christian charity exem-
plified in her life and work and for
her memory which will always be a
stepping stone to higher things.

RESOLVED:

That we humbly submit to the
decree of our Heavenly Father in
this our loss and while our class
will miss her prepared papers on
the lesson and her letters of en-
couragement yet "we sorrow not as
those who have no hope" for we
know she "sleeps in Jesus" and will
arise to spend the eternal years
with God.

That we, the members of this
church, Sunday School and Aid live
so that we may, when called away
from this life, meet our friend and
sister in that beautiful place our
Saviour has "gone to prepare for
those who love Him."

That we tender our deepest and
heartfelt sympathy to the bereaved
husband and relatives in this their
great sorrow and ask them to look
trustingly to Jesus for comfort.

"Shrouded in her whitened rai-
ment lying in that last repose,
With her features cold and rigid
and as white as winter's snows;
She seemed sleeping, Oh, so sweetly
in a long unbroken rest,
With her tired hands enfolded and
a lily on her breast.

Yes, a sleep that knows no waking
and a rest so calm and deep,

SUMMER SCHOOL

Term Begins June 13.

Bookkeeping
Shorthand
Typewriting
Other
Special Courses

Students Will Not Be Permitted
To Enter Later Than June 13.

Barbourville Business School

That it seems a desecration for her
friends to mourn and weep;
They should find a consolation
while they linger here in tears,
That she is done with all life's sor-
rows, pains and tears."

That a copy of these resolutions
be sent the Advocate, a copy spread
in our class book and a copy sent to
the family.

Committee:

Mrs. F. R. Barner,
Mrs. A. N. Herndon,
Mrs. John M. Tinsley.

UNION COLLEGE NOTES

Mrs. L. R. Reams, of Corbin, is
visiting her mother, Mrs. Mae Wal-
lace, during commencement.

Miss Hazel Smith spent the week
with her sister, Miss Idamae.

Mr. J. W. Anderson, of Cincinnati
is visiting his nieces, Misses Blanch
and Alice Whittington.

The Girls Varsity Basketball team
presented the Eastern Kentucky
Interscholastic banner which they
won this year to Dr. Franklin in
Chapel this morning. It will be
hung in the trophy room which we
hope to have in a few years.

The Woman's Bible Class pre-
sented a mountain coverlid to Miss
Carter Sunday for her services as
organist for the last year in the
Methodist Church.

The Annual Concert was well at-
tended last night. It was one of the
best programs of the year. The mus-
ical part was given largely by the
Band. Paul Rose rendered a delig-
htful trombone solo, Lela Vincent
sang as beautifully as ever and Cecil
Byrley gave a reading.

The Dramatic Society presented
a very enjoyable program Friday
night; next year this society hopes
to be even more active than this year.

The Endowment workers are as
usual busy as bees for Union Col-
lege. We are expecting to have a
celebration Wednesday morning in
Chapel.

It has been good to have Presi-
dent Franklin with us for the last
few days. He has been away so
much this spring that his presence
among us is a real treat.

Readers of the Advocate will be
glad to know that Dean Ryder, who
went to California some weeks ago
for his health, is improving so rap-
idly that he is now preaching every
night.

Star gazing continues to be a
favorite evening pastime on the
Campus.

The Vesper Service on the Cam-
pus Sunday evening was another
most delightful occasion of our '22
Commencement. Dr. Roberts, who
preached the Baccalaureate sermon
gave the address. We hope the peo-
ple of Barbourville will come in

larger numbers next year to this
delightful early evening service.

With this issue of Union College
Notes the editor from the Junior
Class wishes to express the grati-
tude of the school to the Mountain
Advocate for the regular publi-
cation of our notes; we wish for the
Advocate and for all its readers a
very happy summer, and we hope
to meet you all again in September.

Note—Miss Flossie Turner has
served for the entire year as Adv-
ocate reporter from the Academy
Junior Class for Union College
Notes. Flossie has been on the job
for almost every issue since Sept.
20, 1920. The Juniors wish to ex-
press their appreciation of her faith-
ful service.—A. E. W.

LOGAN HOSPITAL

H. C. Smith underwent an opera-
tion May 30.

Mrs. T. J. Belcher is recovering
nicely following an operation.

Mary Hammack is in the hospital
with a compound fracture of the
leg.

A. J. Brooks was operated upon
Wednesday.

Born to Mr. and Mrs. Joe Mitchell
a baby girl May 31st.

Hobart Ray, of Grays, is receiv-
ing medical attention this week.

NEW CIRCUIT COURT CLERK

Due to the efforts of a number of
the most influential citizens, Mr. H.
L. Taylor has been appointed Cir-
cuit Court Clerk of Knox County to
succeed Rev. Marcum Smith, re-
signed.

Mr. Taylor is an exceedingly ob-
liging young man, knows the work
and will fill the office with credit
to himself and the County. He has
done the work for months and thus
knows every angle connected with
it.

BAPTIST CHURCH

9:30 A.M.—The largest and best
taught S. S. in Knox County invites
you to join the rest of the folks
here Sunday. Average attendance
for the month of May 388.

11 A. M.—The Mother's Day Ser-
mon which was postponed because
of the baccalaureate services will be
given at this hour. A special musi-
cal program by the best talent in
Barbourville under the direction of
our popular leader, Prof. Bunnell.
has been arranged.

6:45 B. Y. P. U.

7:30 P. M.—An evangelistic ser-
vice. Three baptized last Sunday
and three more additions Sunday
night. Come and bring others.

Dr. and Mrs. B. P. Jones are in
Louisville this week. They will
meet Miss Bertha King and she will
return with them to spend the vaca-
tion here.

One Thing Well Done

T. H. BYRD

Registered Optometrist and Optician

S. E. Corner of Public Square

Barbourville, Ky.

SPECIALIZING

of Defects of Eyesight by the Fitting of Proper Glasses

HATTON

Mrs. Sallie Brittain Hatton, wife
of Harvey Hatton, daughter and
eighth child of the late David Y.
Lytle, was born at Manchester
August 22nd, 1860, and died at her
home in Barbourville May 25th,
1922. Rev. D. Edgar Allen officiated
at the burial services where a
large crowd of friends had gathered
bearing a multitude of floral tri-
butes.

ATTENTION

Knox County Teachers

There will not be a County Teach-
ers' Institute this year. The Insti-
tute is a thing of the past. Summer
Schools are to take the place of In-
stitutes. It is intended that a sum-
mer school be conducted by the
County Board of Education in all
counties in the near future. Dur-
ing the present year the Summer
School is being conducted at Union
College. It begins June 5th and
continues in session five weeks, six
days to the week. It is not compul-
sory on a teacher to attend a Sum-
mer School, but the teacher who at-
tends a Summer School will receive
more pay than he will if he does
not attend.

All teachers who teach in the Pub-
lic Schools of Knox County will be
notified to meet one day at Union
College during the Summer School
for general discussion as to how we
may better co-operate to get the
best results from Public Schools
during the coming school year.

Teachers will be hired June 24th.
Any teacher who expects to teach in
Knox County and has not filed an
application properly filled out
should do so at once.

W. W. EVANS, County Supt.

UNION COLLEGE

COMMENCEMENT WEEK

Commencement has been an un-
usually busy season this year with
a program every night for a week
with class meetings, faculty meet-
ings, picnics and examinations.

On Thursday of last week Miss
Heger's pupils gave a song recital
which proved very pleasing. On Fri-
day night the Dramatic Society pre-
sented a program which also de-
lighted those present. Then Satur-
day night the Swimming Meet was
enjoyed both by the on lookers and
the participants. Sunday was a full
day with Baccalaureate service in
the M. E. Church in the morning
when the Academy and College
graduating classes appeared in their
caps and gowns. The Vesper Ser-
vice is becoming more and more po-
pular and is an hour to be remem-
bered thru life.

On Monday evening the Annual
Concert was given before an enthu-
siastic audience. All the numbers
were well rendered and the band is
highly appreciated. Cecil Byrley
gave a reading that demanded an

Rheumatism at 60

How glorious you will feel, mother,
when your rheumatism is all gone. Let
S. S. S. do it. It will build you up, too!

S. S. S. Thoroughly Rids the Body of
Rheumatism Impurities.

Somebody's mother is suffering to-
night! The scourge of rheumatism
has wrecked her body, limping and
suffering, bent forward, she sees but
the common ground, but her aged
heart still belongs to the stars! Does
anybody care? S. S. S. is one of the
greatest blood-purifiers known, and it
helps build more blood cells. Its medi-
cinal ingredients are purely vegeta-
ble. It never disarranges the stomach.
It is, in fact, a splendid tonic, a blood
maker, a blood enricher. It banishes
rheumatism from joints, muscles and
the entire body. It builds firm flesh.
It is what somebody's mother needs
tonight! Mother, if you can not go
out to get a bottle of S. S. S. yourself,
surely somebody in your family will.
Somebody, get a bottle of S. S. S. now!
Let somebody's mother begin to feel
joyful again tonight! Maybe, maybe
it's your mother! S. S. S. is sold at
all drug stores, in two sizes. The
larger size is the more economical.

encore for Cecil reads well. Lela
Vincent proved she can sing pleas-
ing her audience more than ever be-
fore. Paul Rose rendered a trom-
bone solo which shows he knows his
instrument. Margaret Wilson is an
accomplished pianist and rendered
her solo with expression.

On Tuesday evening the Senior
Academy Class entertained a large
audience with all sorts of stunts.
The class is the largest ever gradu-
ated from the Academy and is loyal
to the institution and to each other.
They have one member from Louis-
ville and one from the far away
state of Louisiana. Their class-roll
follows:

George Ryder, Nannie Stickley,
Grace Miller, Anell Payne, Mary Mil-
ler, Henry Payne, Ben Hynes, Ruby
Bain, Hugh Partin, Ruth Bowman,
Elmer Parker, Robert Stark, Love
Morris, Bryant Cox, Rebecca Saw-
yer, Will Ed Dishman, Mary McDer-
mott, Alice Whittington, Daisy Wa-
gers Ricketts, Vernon Blair, Lonnie
Wallace.

On Wednesday evening the Com-
mencement address was delivered
by Rev. V. O. Ward, of Lexington,
to a packed house. The central
thought was idealism and brother-
hood.

Dr. Franklin, assisted by Dean
Ryder, presented the diplomas first
to the Academy class and then to
the two College graduates who both
receive the B. A. degree cum lau-
dam, both being first class students,
Miss Marjorie Brown and Darrell
Archibald.

It is felt that Union has just
closed a very successful year.

S. A. Loveless, Jr., son of S. A.
Loveless of the Grant Drug Co.,
arrived Monday to spend the vaca-
tion in Barbourville. He is an un-
dergraduate of the Louisville School
of Pharmacy and will be with the
Grant Drug Co.

B. B. I. COMMENCEMENT

B. B. I. closed a very successful
year last Friday when Dr. C. C.
Pugh, pastor of the First Baptist
Church at Williamsburg delivered the
commencement address. Diplo-
mas were presented to the two high
school graduates, Miss Ella Mae
Parker and Miss Beatrice Hughes,

to twenty from the Business School.

MEMORIAL DAY SERVICES

IN WASHINGTON, D. C.

Special services were held in all
the many cemeteries of the District
of Columbia. Hon. J. M. Robson
delivered the oration of the day at
the National Cemetery U. S. Sol-
diers Home where an elaborate pro-
gram was carried out. Mrs. Mary
Logan Tucker, daughter of Gen.
John A. Logan who established
Memorial Day, read Gen. Logan's
order establishing the day.

President Harding unveiled and
dedicated the Lincoln Memorial on
the banks of the Potomac on Mem-
orial Day.

TALENTED GUEST

WELCOMED HERE

Miss Roberta Cole, who has been
spending a few days the guest of
Miss Nelle Korn, of Calumet Ave.,
left to day to resume her studies at
the College of Music, Cincinnati, re-
taining the memory of many happy
social affairs in her honor while in
the city.

Miss Cole is studying voice under
Prof. Gorno and is gaining great re-
cognition as a vocalist. Many of
her friends had the opportunity of
hearing her sing at the Methodist
Protestant Church Sunday morning,
displaying the beautiful qualities of
her voice in "I Heard the Voice of
Jesus Say." Miss Cole is expecting
to return in a few weeks at which
time her friends will be glad to hear
her sing. —Middletown Ex. Ohio.

LINKING MOVIE AND RADIO

British Scientists Have Some Success
in Wireless Transmission of
Motion Pictures.

British scientists are reported to
have met with more or less success in
developing a method of transferring
motion pictures by radio. Some
months ago a photograph was trans-
ferred by wireless from the Copen-
hagen newspaper, the Politiken, to Eng-
land, and later from England to a ship
in mid Atlantic, so that the possibi-
lity of linking the movies with the new
art is not remote.

If perfected the new development of
the already versatile art will make it
possible for one to see on his own re-
ceiving instrument things that are hap-
pening at a great distance. For
instance, a ship is sinking at sea. The
transmitting station of the vessel, in-
stead of sending a message of the dis-
aster, sends a picture that anyone with
a receiving set will be able to see just
as the present broadcasting program
are heard.

That all sounds remote now, but
the telephone was considered even
more so, and the wireless, even after
Marconi's immortal message had
bridged the Atlantic, was generally be-
lieved to be akin to the idea of per-
petual motion.

TIPS TO THE RADIOIST

A crystal detector cannot be
satisfactorily amplified.

Insulate ends of aerial wires
with several small insulators.

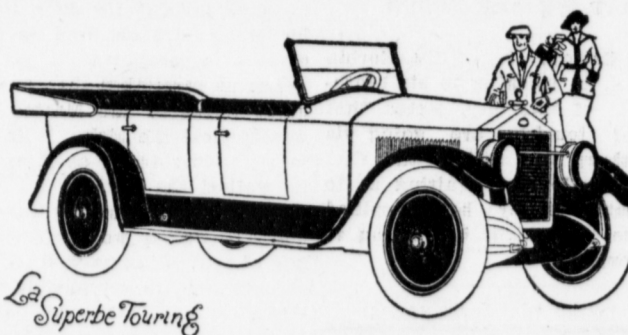

Wherever possible run aerial
wires at right angles to electric
light wires.

The lead wire should be the
size of the combined number of
wires in the aerial.

Gas piping makes a poor
ground, but the cold water pipe
ground is excellent.

A crystal detector is never as
efficient as a vacuum tube detec-
tor no matter what instruments
are connected to it.

Within three to five miles from
a broadcasting station indoor
one wire aerials about 40 feet
long stretched from room to
room, are generally satisfactory
with crystal detectors.

WEAK, NERVOUS, ALL RUN-DOWN

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. I saw after taking some Cardui... that I was improving. The result was surprising. I felt like a different person."

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me... My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments.

For sale everywhere. **E.S.**

COMMISSIONER'S SALE

By order of the Knox Circuit Court rendered at its April Term, 1922, in the case of Parrott Garage against Sherman Bowles, Defendant,

I will, as Master Commissioner, on the 26th day of June, 1922, same being the first day of the June Term of the Knox County Court, sell at the Court House door in Barbourville, Kentucky, to the highest and best bidder the following described property, at the hour of 9 a.m., to satisfy the judgment in said case, amounting to \$503.15 with interest from Dec. 13, 1922, and \$40.00 probable cost.

Description:
One certain, five passenger Ford Touring Car, motor number 4,498, 144.

Said property will be sold on a credit of six months, the purchaser to execute bond with approved security, bearing interest at six per cent from date, having the force and effect of a judgment and retaining a lien on said property until said money is paid.

WITNESS my hand, this the 31st day of May, 1922.

C. H. JONES,
Master Commissioner,
Knox Circuit Court.

Sale about 1 p.m. Purchaser must execute bond as soon as sale is over or the property will be immediately put up and re-sold.

SOME SCOUT GOOD TURNS

Here are a few good turns done by different individual scouts in a Pennsylvania town, reported anonymously:
1. A crippled girl slipped and fell getting off a street car. I helped her up and carried her basket home. Refused a tip.

2. Found a dollar and gave it to woman who lost it.
3. Saved a kitten from a mad dog.
4. Stopped a little boy on his sled from being run over by an auto.
Helped push a crippled man home. He rides a tricycle, which he couldn't start on icy pavements.
6. Warned a man that a fellow was burglarizing his mill.

PRINCIPAL PRAISES SCOUTS

Henry M. Hart, principal of the Lewis and Clark High school of Spokane, Wash., recently issued the following statement:

"Boy scouts who come to the high school exhibit three predominating characteristics as a group: Ready perception, a sense of courtesy and willingness to assume the responsibility of student leadership. The Lewis and Clark boys who have had training in scoutdom exhibit a fearlessness, fearlessness and frankness that make for them friends. I am highly impressed with the value of this work for boys."

DOINGS OF SCOUTS

A curious case is reported from Kansas City, where Harry Saloman, a blacksmith arrested for abusing his wife while under the influence of drink, was paroled to his own son, a fourteen-year-old boy scout.

Fort Worth sea scouts are building their own sail boats, each of which will be capable of carrying ten passengers and 27 feet of canvas. The keel of the first vessel, the Merrimac, has already been laid, and that of her sister ship, the Pirate, will soon follow.

USE OF MILKING MACHINES GAINS

Increased Number Being Employed Makes Cleaning Methods of Much Importance.

HOT-WATER METHOD IS BEST

To Keep Mechanical Devices Sweet and Clean All Parts Should Be Scrubbed at Least Once Every Week.

(Prepared by the United States Department of Agriculture.)

The increasing use of milking machines in the United States makes the method of cleaning and caring for them an important one. In studies of dairy sanitation the number of bacteria which survive various methods of cleaning and care enables investigators to determine the relative merits of various systems of cleaning machines. In addition to laboratory observations, the United States Department of Agriculture has tried out methods of cleaning and sterilizing mechanical milkers on a number of farms.

On 13 farms where only ordinary care was given, the highest bacteria count was more than 2,000,000 per cubic centimeter, and the average was more than a quarter of a million. After the machines had been kept clean and sterilized by the hot-water method, the average of 261 samples showed less than 20,000 bacteria per cubic centimeter, and one sample showed only one thousand. Of course, with careless methods, milk produced by hand milking may be badly contaminated; but the milking machine, being an additional piece of apparatus between the cow and the consumer, should receive special care.

Hot-Water Method Best.

Sterilizing milking machines with a chlorine solution has been done on a good many farms, but the tests made by the department have shown that much better results come from the use of the hot-water method. Just after milking, the machines are rinsed with cold or lukewarm water drawn through by vacuum, the stream being broken occasionally by pulling the test cups out of the water and immersing them again. This is done 10 or 12 times. The process is then repeated with hot soda solution, and the cups and tubing are washed with a brush at the same time. Then the parts are rinsed by drawing clean water through by vacuum.

After this cleaning, the long milk tubes with the test cups attached are

Milking Machine in Operation.

detached from the head of the pail, the air tubes (on inflation types of machines) plugged, and the whole immersed in a tank of clean water. The water is then heated to 160 degrees or 170 degrees F. This may be done by setting the tank on a stove; by setting it up and building a fire under it; or by introducing steam from a boiler. The parts are left in this water until the next milking.

The effect of heating upon the rubber parts has not yet been fully determined, but so far the temperatures used have had little effect on the life of the rubber.

Clean Thoroughly Each Week.

To keep the machines sweet and clean they must be taken entirely apart once a week and all the parts scrubbed with brushes and hot soda solution. The vacuum line should be cleaned every two weeks by drawing hot soda solution through it, but if milk is accidentally drawn into it the pipe should be cleaned immediately after milking. Pails and covers need to be washed and sterilized with steam or boiling water after every milking.

It is important that the development of mechanical milkers should not be handicapped by improper methods of cleaning them.

WOOD ASHES ASSIST GARDEN

Material Should Be Scattered Over Soil to Get Benefit of Potash Fertilizer.

Do not waste any wood ashes from the grate. Strew them over the garden. They are rich in potash fertilizer. It will leach into the ground, but unlike nitrates, will remain there in suspension and the plants can get the full benefit. You are throwing away money when you throw away wood ashes. They are especially valuable for daffodil and tulip beds.

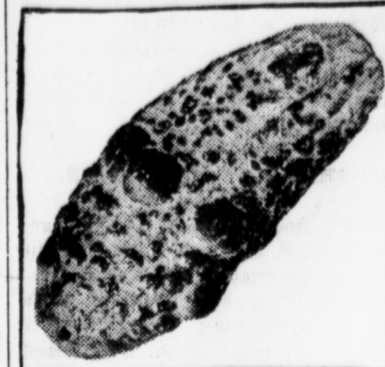

CUCUMBER DISORDER SPREAD BY INSECTS

Mosaic Disease Is Widespread in the United States.

Wild Cucumber Vine and Common Milkweed Are Principal Host Plants of Malady—Eradication Is Strongly Urged.

(Prepared by the United States Department of Agriculture.)

The wild cucumber vine and the common milkweed, as shown by investigations by the United States Department of Agriculture, are the principal wild host plants of the cucumber mosaic, or "white pickle" disease. This disease is widespread in the United States, but is most general and serious in the Middle West, where the major portion of the pickle-growing industry is located. Cucumber mosaic is caused by a virus, and the most common means of spreading it is by two kinds of insects, the striped cucumber beetle, the melon aphid, and by pickers. The disease is not carried through the winter in the soil or by insects, and trials have shown that

Mosaic Disease of Cucumber.

seeds from diseased cultivated cucumbers rarely produce mosaic plants. It has been found, however, that seeds from mosaic fruits of the wild cucumber will produce a certain percentage of mosaic plants when planted and the disease may thus winter over on this wild host. Wild cucumber vines appear along fences and streams from three to four weeks before the cultivated cucumbers are planted, and the striped cucumber beetle feeds on these wild plants and then flies to the cucumber fields, carrying the mosaic virus if it exists. The common milkweed is also subject to cucumber mosaic and as it lives for many years the disease is reproduced each year from the diseased roots. Insects, particularly the melon aphid, are also the agents which carry mosaic from milkweed to cucumber. Eradication of these wild hosts is strongly advised as the most effective control measure yet known. Field experiments indicate that such treatment not only reduces the amount of disease in the fields, but also its seriousness by delaying its appearance by two to four weeks just at the time when the plants are producing large yields.

CORN FOR SILAGE PURPOSES

Early Planting of Well-Matured Seed of Large Variety Is Often Most Profitable.

In the north an early planting of well-matured seed of a large variety of corn is often most profitable when the crop is intended for silage purposes. Of course, if a grain crop is desired, the corn variety must be chosen that has the best chance of maturing a good yield of grain. But if silage is the object, the same degree of maturity is not necessary. The production may be increased simply by choosing a somewhat longer season crop, one that will reach the proper ensiling stage at about the same time the Northern grain would have to be maturing. Here is one more place where the Northern silo owner can get the jump on some of his less fortunate neighbors.

BIG DANGER IN USING LIME

When All Acidity of Soil Has Been Used Up There Is Trouble in Raising Some Crops.

A test was made covering 15 years of growing truck crops with manure, at the rate of ten loads to the acre, and with other fertilizers. The fertilized plots yielded good crops for a few years and then failed. Doctor Hartwell of the Rhode Island experiment station does not advise any fertilizers in continuous crop rotation without green manuring. He said that Rhode Island was responsible for the use of lime, and now it ought to be responsible for saying that there is danger in using too much lime. When you have used up all the acidity in the soil you are in for trouble, especially with such crops as spinach. If you do not get any pink on blue litmus paper, the soil does not need more lime.

BIG VALUE OF ALFALFA

Alfalfa pasture is worth \$25 to \$35 per acre when it will feed 20 pigs per acre that will gain 200 pounds each during the season. If they are fed without pasture, they will need 1,500 pounds more of corn and 800 pounds of tankage. In addition to this we can cut a ton or two of hay from the same land and still have better grazing than if it were not mowed.—J. M. Harvard, Iowa Station.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

SCOUTS, COMMUNITY ASSETS

When it comes to the community "Good Turn" boy scouts are right on the job. The following report for 1921 has just reached the national council of the Boy Scouts of America, from Atlantic City, New Jersey:

The boy scouts of Atlantic City assisted voluntarily in good movements for civic welfare. Listed below are a few of the many civic "good turns" in which they participated.

1. Assisted in the annual Atlantic City pageant and bathers' review as aid to King Neptune, ushers, messengers, etc. Also took part in all the events, entering two floats.

2. Assisted four times per year in delivery of invitations to naturalization school conducted by the United States Department of Labor at the Illinois Avenue school.

3. Distributed propaganda for Near East Relief drive.

4. Conducted Roosevelt week in Atlantic City putting before the churches, schools, clubs and individuals the life of this great man.

5. Assisted in the celebration of Mother's day.

6. Assisted as messengers during the National Education convention in April for one whole week.

7. Assisted as messengers during the national convention, Masonic Order of Gotos.

8. Distributed 10,000 bags for the Atlantic City hospital during Christmas week.

9. Collected food for the poor and distributed same during Thanksgiving and Christmas week.

10. Assisted the Visiting Nurse's association in the sale and distribution of Christmas seals.

11. Assisted as messengers during the fifth district conference of the Rotary club at the steel pier and Vernon hall.

12. On many occasions collected the boxes throughout Atlantic City for the permanent blind relief fund.

13. Assisted as ushers and messengers at the National Paint, Oil and Varnish association at their convention at the Hotel Traymore.

14. Participated in the annual Memorial day parade of the G. A. R.

15. Promoted Good Book week conducted by the Atlantic City public library.

16. Assisted as aides and messengers at the convention of the United States Chamber of Commerce at the Million Dollar pier in April.

17. Assisted the Atlantic City Underwriters' association in distributing posters about the city for Fire Prevention day in October.

18. Distributed printed matter for the China Famine relief in April.

19. And many other small community "good turns" of which we have no record.

BELIEVES IN SCOUTING

Governor W. H. McMaster, who was one of the thirty or more gubernatorial heads who became officially tenderfoot scouts during the twelfth anniversary of the Boy Scouts of America, is a staunch believer in scouting, particularly in the scout oath and law, and even more particularly in the good turn. "There is no investment a boy can make," he told the scouts on the occasion of his investiture, "that is so sure of winning a quick return as kindness," and he went on to suggest that the person most deserving of all of a scout's thoughtfulness and devotion is "mother." He advised every boy to go home and kiss his mother, and to follow up the kiss by doing everything, big or little, that would help her or save her in any way from worry.

IN AN ORPHANAGE

Troop 26 of the Pacific Hebrew orphanage in San Francisco has won a high place under the enthusiastic leadership of Julius I. Kahn. In spite of the fact that the freedom of these boys is somewhat curtailed by the conditions of institutional life, they manage to get in some hiking and camping and are splendid "good turners." Scout Harry Pepper was voted the troop winner in a good turn contest for the year 1921. The act which won him this honor by vote of the troop is as follows: The boys were expected to clean up a hall which had been left littered and disorderly after an entertainment. What was their surprise, therefore, the next morning to find the hall as clean as if the brownies had been at work all night. But Harry Pepper was the brownie. He had spent his good hours working while the others slept.

MEDALS ASKED FOR LIVE SAVER

Application has been made to the national court of honor for a life-saving medal to be awarded to Eugene McGlone, a student of Centenary college at Shreveport, La., who saved the life of Sam Brand at the risk of his own in February last. The two boys were on a raft which broke, letting them down into the water. McGlone could swim, but Brand could not. McGlone pushed a log to his friend and towed him to shore.

Mother-To-Be, Read This—

Here is a wonderful message to all expectant mothers. From this moment on, cast from your mind all dread and fear, and feel every day as the months roll by that great freedom from much of the suffering which thousands of expectant mothers undergo, unnecessarily. And when the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes."

"Mother's Friend" is applied externally to the abdomen, back and hips. It aids the muscles and tissues to expand easily. It penetrates quickly. It contains no narcotics or harmful drugs. It is safe. There is no substitute. Avoid useless greases sometimes recommended by the unknown. "Mother's Friend" is sold by druggists everywhere.

NOTE—Write for valuable, free illustrated book, "Motherhood and the Baby," containing important authoritative information which every expectant mother should have, and all about "Mother's Friend," to Bradford Regulator Company, R. 40, Atlanta, Ga.

WILTON NEWS

COMMISSIONER'S SALE

By order of the Knox Circuit Court rendered at its April Term, 1922, in the case of

F. Moore, et al,

Plaintiff

against

A. Morre, et al,

Defendant

I will, as Master Commissioner, on the 26th day of June, 1922, same being the first day of the County Court, sell at the Court House door in Barbourville, Kentucky, to the highest and best bidder, the following described property, to satisfy the judgment in said case as shown in said judgment, of record in Circuit Court Clerk's Office, and \$40 probable cost.

Description:
A certain house and lot in Barbourville, Kentucky, on the west side of Depot Street, and bounded and described as follows:

Beginning at a gate post on the West side of Depot Street, at a corner of a lot owned by W. C. Lockhart, and 80 feet from the South-east corner of W. C. Lockhart's lot; thence running a South-east course with the line of the said lot of W. C. Lockhart, straight to a marked birch on the bank of Cumberland River 250 feet, from the beginning; thence up the river with its meanders and the east bank thereof to mouth of Hog Hollow Branch; thence up said branch with its meanders to a point about 25 feet from the west side of Depot Street; thence continuing in an eastern course about 25 feet, to Depot St. at a point 138 feet from the beginning, thence with the west side of Depot Street to the beginning.

Said property will be sold on a credit of six months, the purchaser to execute bond with approved security, bearing interest at six percent from date having the force and effect of a judgment and retaining a lien on said property until the purchase money is paid.

WITNESS my hand, this the 31st day of May, 1922.

C. H. JONES,

Master Commissioner, Knox Circuit Court.

Sale about 1 p.m. Purchaser must execute bond as soon as sale is over, or the property will be immediately put up and re-sold. 31-3t

IMPORTANT FEATURES OF THE GENERAL REGISTRATION ACT

Under the law, passed over the Governor's veto by the 1922 General Assembly, every voter must register in order to be eligible to vote at the November election.

Dates of registration this year, July 10 and 11 and September 8. Hours—6 a.m. to 9 p.m.

Officers—Two judges, a clerk and a sheriff. These are to be appointed by the County Board of Election Commissioners not later than June 20, from lists to be furnished by the party committees not later than June 15. "No person shall be eligible as an officer of registration who has committed a homicide, or who has been convicted of a felony or is under indictment therefor, or who is not sober, temperate, discreet and of good demeanor, or has anything of value wagered on the result of the next election, or who is a candidate to be voted for at the next preceding (should be succeeding) election, and who is not capable of reading the Constitution of the Commonwealth in English and of writing a plain and legible hand." See Section 2 of the Act.

It is the duty of the registration clerk to post notices in at least six conspicuous places in the precinct ten days in advance, giving the time and place of registration. As soon as registration officers receive from the sheriff of the county notice of their appointment, they should secure a copy of the registration law and make themselves thoroughly familiar with it.

Who may register—"Said officers shall register every citizen of the United States of his his or her precinct, who shall apply to be registered at the time and place in the manner required by law, who shall be twenty-one years of age at the next election, who has been a resident of the state for one year, of the county six months and of the precinct in which such person offers to register sixty days next preceding the election."

It is not necessary that the voter should be a resident of the precinct sixty days before he offers to register. If, by the November election, he will have been a citizen of the state one year, of the county six months, and of the precinct sixty days he may register, even tho he may have moved into the precinct the day before, or even the day of registration.

How to register—The voter must apply in person. His or her name will be recorded in a book by the Clerk. The voter must then give his address, street and number if in a city and post office if in the country, length of residence in state, county and precinct, color, age, sex, occupation, party affiliation, apparent weight and height and other means of identification. When all of this is recorded, the voter must sign his name, if he can. If he is unable to sign he may make oath to that fact and the clerk will sign for him. When all of this is done and attested by the clerk and sheriff the voter is duly registered.

Within three days after registration the books must be taken to the County Clerk's office, where a copy of each precinct book is made by the County Clerk. 30-3t

WHY THAT LAME BACK?

That morning lameness—those sharp pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this Barbourville resident's example.

Mrs. W. M. Lambdin, N. Main St. says: "I had an attack of kidney trouble and my back pained. I had spells of dizziness that would almost blind me. Several times when I stooped over to get anything I fell right down and everything turned black before me. My kidneys were weak and irregular at times. Mornings I felt so tired and languid it was hard for me to do my housework. A neighbor advised me to take Doan's Kidney Pills and I took two boxes which cured me right away."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Lambdin had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

TO ALL CITIZENS AND RESIDENTS OF KNOX COUNTY

By appointment I am your Circuit Court Clerk, and I trust that none of you who requested the Hon. Judge to bestow this trust upon me shall ever regret so doing.

First, I want to thank the lady Jurors of the April Term who signed a petition in my behalf requesting that I be appointed to this position; next I want to thank the Hon. Judge for appointing me. I want to express my thanks to the men Petit Jurors of the April Term and Grand Jurors for their undivided support; the Board of Education of Knox County, the Fiscal Court and all other county officers and the attorneys of the Knox County Bar and citizens who live in various parts of the county who endorsed me; and I also want to thank those who were well-wishers on my receiving the appointment but did not have an opportunity to express themselves. I shall never forget your acts done in my behalf and I trust the time will come that I can prove to you my appreciation. I am now ready and willing to do anything for you that is in the bounds of reason and justice.

Respectfully,

H. L. TAYLOR,
Circuit Court Clerk,
Knox County, Ky.

ARE YOU INTERESTED?

The War Department is actively engaged in organizing the Officers' Reserve Corps and the Enlisted Men's Reserve Corps into units of the Organized Reserves. It is hoped by assigning organizations to localities within states to arouse a local pride which will aid materially in making these units a success.

One of the units allotted to the eastern half of Kentucky is the 314th Cavalry Regiment. Major John H. Terry, Cynthiana, Ky., is the Commanding Officer of this regiment and Captain Carl B. Byrd, Lexington, Ky., is the Executive Officer. Officers, Non-Commissioned Officers and Enlisted Specialists are desired for this unit. Former officers and enlisted men of the World War are eligible for appointment in the highest grade held during the war.

Those interested should communicate with Headquarters, 314th Cavalry: Third Floor, Post Office Building, Lexington, Ky., or Headquarters 64th Cavalry Division, Fifth Floor, Post Office Building, Louisville, Ky.

KIWANIANS PLEASE NOTE

TONIGHT IS LADIES NIGHT AT UNION COLLEGE 7 O'clock

Prince Ella Dean in "Conflict" Saturday night at the Star Theatre.

C. B. Johnson, of Grays, was in town on business.

James Wilson and son Jack spent the week end in Louisville.

George F. Tinsley spent the week end with his family.

Mrs. J. D. Tuggle left Sunday for a week in Louisville.

G. W. Hammond, of Girdler, was in town Monday.

Dr. S. E. Jones, of Jarvis Store, visited Barbourville Monday.

Ed Mackey, depot agent at Wallins Creek, was in town Monday.

George Brice, of Knox Fork, was in town Monday on business.

Mrs. B. B. Golden spent a few days in town the first of the week.

Gov. James D. Black is busy these days attending court at Pineville.

Ladies night tonight, Mr. Kiwanian, at Union College, 7:00 o'clock.

John Stafford sold about thirty-five pounds of fish in town Monday.

Miss Laura Hayes is spending a week in Louisville on business and pleasure.

Walter Barner, banker of Wallins Creek, spent Sunday with his people here.

Dr. J. Effron, of Frankfort, has been visiting friends in town the past week.

Mr. and Mrs. J. W. Morris, of High Splint took in Union College Commencement week.

Mrs. S. N. Miller is visiting her parents, Mr. and Mrs. I. H. Ballard, in Nicholasville, Ky.

Miss Effie Hutton, of Corbin, Ky., is visiting friends and relatives in Barbourville.

It a pleasure to sell Tanlac, because those who buy it come back and praise it.—Cut Rate Drug Co.

Keep an eye on the advertising columns of the Advocate. Something interesting is about to happen.

Mrs. Ion Carroll came in Monday from Bowling Green and spent a few busy days visiting her many friends.

James Blair, of High Splint, was here this week taking in U. C. commencement and visiting home folks.

Matt Wells, farmer of Artemus, was in town Friday of last week and subscribed for the Advocate.

Dr. Chas L. Heath, of Wilton, was in town Friday and gave the Advocate some job work besides subscribing for the paper.

Earle Hughes and Bert Bonta, of Wilmore, Ky., have been guests in the home of Mr. and Mrs. George Hutton.

Watch the advertising for something that is going to happen at the store that uses the most printer's ink.

Garrett Dozier bought a Kline player this week from the Clear Tone Music Co. and is delighted with the instrument.

Miss Martha Stone, of Birmingham, Alabama, is visiting Miss Lilydale Tye. Miss Stone is a student from Washington-Lee University.

Mr. and Mrs. Clarence Swearingen and family are visiting Mr. Swearingen's parents in Vanceburg, Kentucky.

Dr. G. M. Klepfer is moving to Pineville this week end where he has accepted the call of the Pineville M. E. Church.

The large and modern Tanlac Laboratories at Dayton, Ohio, occupy 60,000 square feet of floor space.—Cut Rate Drug Co.

Mr. and Mrs. C. E. Bunnell were in Corbin the first of the week.

Mrs. Spence Herron and children of Corbin spent a few days this week with Mrs. Harry Holman.

Miss Anna Sphar, of Pineville is visiting her grandparents, Mr. and Mrs. J. T. Gibson.

Mrs. W. B. Sutton spent Sunday and Monday in Pineville, the guest of Mrs. N. T. Arnett.

Miss Hazel Oliver, of B. B. I. left Tuesday for her home in Franklin, Kentucky.

Mr. and Mrs. R. N. Cornett, of Pineville attended Union College Commencement.

Miss Mattie Trabue of B. B. I. will leave Saturday for her home in Pembroke, Ky.

Eugene Lynch, of Lebanon, was the guest of his brother, Lee Lynch and family Sunday and Monday.

Rev. D. Edgar Allen and Prof. C. E. Bunnell attended the Baptist ministers conference in Corbin last Thursday.

J. Frank Hawn's factory is busy making all the door and window casings for the Baptist church and the Logan hospital.

Mrs. John Sampson and two children are visiting her mother, Mrs. Wm. Lambdin, and sister, Mrs. Wilson, in Pineville.

Mrs. W. S. Hudson returned last week from a pleasant visit with her parents, Mr. and Mrs. P. V. Cole, in Harlan.

Ernest Congleton has come in from Lexington to be with his parents and will spend some time here on business.

Allan Tuggle is spending a week at Locust Grove Military College, near Atlanta, Ga., the guest of Prof. C. E. Ahler and Joe Medcalf.

By watching the advertising columns of the Advocate you will learn what the Store which uses the most printer's ink is going to put on.

Robert McKeehan has bought out T. G. Gibson's share in the Candy Kitchen and will have complete control. Mr. Gibson will return to Bell County.

More people have taken Tanlac and praised it than any other medicine in the world. There's one reason only—merit.—Cut Rate Drug Store.

Miss Maddyne Baker, of Norfolk, Va., is spending the summer with her grandmother, Mrs. W. M. Baker, much to the delight of her many friends.

Mrs. S. M. Gray, of Grays, was a caller at the Advocate office last Wednesday. The trip over was made by auto the roads proving fairly good.

Little Dinkie overalls are now quite popular among the little girls who find them very satisfactory for picnic and play wear. They are a product of the local factory.

J. W. Anderson, one of the Cincinnati Enquirer staff, was here for Union College commencement and a visit with his nieces, Miss Blanche and Miss Alice Whittington of U. C.

Warren Ryder, of Barbourville, has received together with other members of the Oklahoma University Glee Club, a ruby pin, a mark of appreciation of their work on the singing tours.

Contractors are at work on Cemetery Hill road this week filling in the grading. Frank Catron is grading the road as far as Judge Stamper's home on Big Richland. All good road work helps.

Rev. A. A. Ford was host to the Junior Christian Endeavor and had a supper on Reservoir Hill and need less to say every one had a great time. Upon their return to town Frank Davidson took the bunch to the movies.

On Monday Jay Lay, from down the river, was displaying a large catfish, the result of a recent catch. The fish weighed just over twenty-one pounds and measured a full yard long. Some good steak in this old fellow.

Mrs. J. A. RUSSELL

HOW'S YOUR STOMACH?

Any Weakness or Distress?

Copperhill, Tenn.—"I suffered for 8 years from stomach trouble, and truthfully can say that Dr. Pierce's Golden Medical Discovery did more for me than all the doctors I ever tried. One of my neighbors said, 'Why don't you try Dr. Pierce's Golden Medical Discovery?' I sent and got a bottle and I can hardly tell how much that one bottle did for me, and when I had taken three bottles I was able to do my washing. I couldn't do all my housework before I began taking the medicine, and now I can do anything I want to and feel good." I praise Dr. Pierce's Golden Medical Discovery to everybody.—Mrs. J. A. Russell.

Go at once to your neighborhood drug store and get the "Golden Medical Discovery" in tablets or liquid. Write Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.; for free medical advice.

As her many friends know, Mrs. F. B. Harris is quite a fisherman. While she and her son Bill were out in the boat the other day busily engaged Bill shot a frog. When this poor frog finally rose to the surface Mrs. Harris reached for him but it was too long a reach and over she went right into the wet water head first but Bill, altho large sized, can move quickly and her feet never even got wet—always keep the feet dry if you would have good health. Mrs. Harris was only practicing a high dive and is none the worse for the incident nor was the days fishing spoiled.

JIM LEE KILLED

AT WALLINS CREEK
Jim Lee, of Fount, was killed near Wallins Creek last Sunday morning, it is alleged by Deputy Christian, formerly of Grays, Knox County, the weapon used being a pistol. One bullet entered the leg, another the body and the third the head. Death was instantaneous.

The body was brought to the family home Monday, interment being on Tuesday.

There are many reports in regard to the occurrence, the most persistent being to the effect that there had been shooting trouble the previous day. This makes the third son of the family to die by the pistol in two years.

BIGE BINGHAM ARRESTED

BigeBingham was arrested Tuesday morning between four and five o'clock by Sheriff Carnes and was taken to Pineville on the early train. It is understood the arrest has to do with the killing of John Stamper in Pineville when Jim Bailey was wounded and Jack Gilbert killed. Bingham left town shortly after the shooting.

CIVIC LEAGUE

A pleasant meeting of the Civic League was held Thursday afternoon, May 25th, at the home of Mrs. F. D. Sampson. The important business of the afternoon was the election of officers with the following result:

President, Mrs. J. R. Tuggle.
1st Vice-Pres., Mrs. J. D. Black.
2nd Vice-Pres., Mrs. J. E. Archer.
Recording Secretary, Mrs. F. D. Sampson.
Assistant Recording Secretary, Mrs. B. P. Walker.
Corresponding Secretary, Mrs. W. T. Mitchell.
Treasurer, Mrs. Ed Garrard.
A pleasant social hour was spent.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

BOY SCOUTS DROWN IN LAKE

Five boys and three men, all of South Bend, Ind., were drowned when a boat carrying a party of boy scouts capsized in Lake Michigan, 80 miles from South Bend. The party was en route to Hemlock Island where a summer scout camp was being laid out. The vessel, a 14-foot steel motorboat, sank in the middle of the lake. The lake is about 40 feet deep at that point.

The dead included Jo N. Taylor, age thirty-nine, scout executive; Vernon C. Murphy, age thirty-five, scoutmaster; Judson Taylor, age twenty, assistant scoutmaster; James Taylor, age eight, son of Jo N. Taylor; William Kingsley, age fifteen; Kenneth Borrough, age fourteen; Clinton Mathews, age sixteen, and Phillip Neltzel.

Boy scouts were on guard duty while some of the bodies lay in state and also participated in the burial exercises at which taps were sounded.

THE TYPICAL EAGLE SCOUT

This is a picture of John Shepherd of Troop 6, Williamsport, Pa. He is a typical Eagle scout—the rank to which the majority of boy scouts aspire.

A GAME SCOUT

Charles Murray, an East side boy, wanted to be a scout, but his parents objected, particularly the father, thinking, despite all the boy's explanations, that it was a military movement. Then came a sad day when Charles was run over and brought to a hospital, believed to be dying. In order to please his son, the father promised to let him be a scout if he got well. The boy suffered a punctured lung which began to heal, and as he lay in bed last winter he studied the scout handbook with might and main so as to get ready to be a tenderfoot scout as soon as he is up and about again. A member of the Horace Mann troop is teaching him all the scouting he can and the troop is about to make the invalid an associate scout. The doctor has said that young Murray must practically live out of doors next summer and the boy thinks that that is the best possible chance for him to practice scouting.

SCOUT THE FAMILY COOK

The camp director at the Pasadena (California) council camp recently sampled some biscuits so superior that he asked the scout who offered them to him whether the boy's mother had baked them. "I made them myself right here at camp over an open fire. I do all the cooking at home." This latter rather unusual bit of information led the camp director to ask more questions and he learned that the boy's father and mother were both dead and that he and his sister lived with his ninety-year-old grandmother and an invalid aunt. "My sister has been sick recently, so I do all the cooking," the scout summed up the situation.

BLIND SCOUTS WIN HONORS

In Faribault, Minn., they have a troop of blind scouts which is doing phenomenal work not only in scouting but in other ways. Twice in succession this troop has carried off the trophy for making the best showing in an efficiency contest and three boys of the troop, Walter LaBelle, Clarence Peterson and Arthur Mitchell, won prizes in the Humane society essay contest on the subject of "Prevention of Cruelty to Animals." Another blind scout, Richard Gustafson, also won honorable mention.

ATTENTION! PARENTS

Not long ago a pathetic letter came into the national headquarters of the Boy Scouts of America from a scout, expressing complete discouragement. Although he loved the Boy Scouts of America and thought it the "best or, perhaps, only way to live," the writer said he had completely failed as a scout. And why? Because his "folks" were "so mean" and all he tried to do was a scout until "being human" by "come up." Where was the failure? With the son or with the parents?

Ladies and Gentlemen will not during the hot, wearing days of summer neglect their feet. If your feet hurt, sweat or burn, if you have corns or bunions, come to the Star Store, tell the Manager your particular trouble.

SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

ROTARY INDORSES SCOUTING

At a Rotary club conference held in Duluth, Minn., on the 16th and 17th of March, the following resolution was unanimously adopted:

WHEREAS, we, the Rotary Clubs of the Fifteenth District, recognize the splendid contribution which the Boy Scout organization is making to the boy life of the nation and to our own district, in the upbuilding of character during the most impressionable years of a boy's life, and

WHEREAS, Boys' work is nationally and internationally recognized as of the highest importance by Rotary International, and

WHEREAS, The Boy Scout motto, "Do a Good Turn Daily," is identical in spirit with our motto "He Profits Most Who Serves Best," thereby making the Boy Scout ideal and the Rotary ideal of service one and the same thing, therefore,

BE IT RESOLVED, that we approve and indorse the work of the Boy Scouts of America; that we recognize in it ideals identical with our own; that we do hereby declare that wherever possible we will lend our influence and leadership to forward the Boy Scout movement in our district, and that our boys' work committees be instructed to call upon Rotary for any service that it may be able to render to the Boy Scouts of America.

BE IT FURTHER RESOLVED that this resolution be spread on the minutes and records of this conference and that a copy of the same be forwarded to the National Council of the Boy Scouts of America, New York City.

FAMILY BELIEVES IN SCOUTING

The Hindmarch family of Pittsburgh, Pa., believes in scouting. The accompanying picture shows three good reasons for their faith, namely, Milton Hindmarch, William Hindmarch, both second-class scouts, and Charles Hindmarch, tenderfoot.

SCOUTING IN PORTO RICO

Scouts are as eager to be helpful in Porto Rico as their brothers in the States are. A scoutmaster of Aguadillo reports that during a recent epidemic of bubonic plague his scouts made a house-to-house canvass distributing board of health instructions. On another occasion when a fire broke out in the center of the town at two o'clock in the morning, the scoutmaster got into his uniform and hurried along the street blowing his whistle. The signal was heard and obeyed. In a moment six proud scouts were by his side, ready to do whatever was required of them. The two who had charge of the first-aid pouch had occasion to demonstrate their skill in this line by rendering assistance to a fireman who had cut his hand, and the others stood on guard duty over property when it was carried to a place of safety.

PREPARED SCOUTS

David Stein, a San Francisco boy scout, while in camp last summer fell over a 20-foot embankment, striking his head against a rock. Two fellow scouts, Homer Sweetman of Troop 25 and Eugene Brown of Troop 28, were luckily on hand and ran promptly to the injured lad's assistance. Having no first-aid kit with them, they tore one of their own shirts into strips for bandages which they used to bind up their friend's wounds. This done, they improvised a stretcher with poles and their coats and got the patient to camp, where he received regular medical treatment from the camp physician, who declared that the boys' prompt and intelligent action had doubtless saved Stein's life.

SCOUTING THE BIGGEST YET

Lieut. Errol B. Hay, scoutmaster of Troop 142, Philadelphia, has had a sufficiently venturesome life, having served in the National Guard along the Rio Grande during the Mexican trouble, and in the thick of things during the recent war overseas. He has paddled the river Jordan and sojourned along the Nile also, but he says his greatest, most thrilling adventure is being the leader of a troop of boy scouts.

RADIO

HOW AMATEUR CAN BUILD A RECEIVER

Instructions for Setting Up the Antenna and for Assembling the Tuner.

In order to pick up sufficient energy with the simple radio receiving set it is necessary to connect one terminal to an antenna consisting of one or more wires suspended in the air and insulated from all grounded material and the other terminal to a ground, usually the water supply pipe. The height of an antenna used with a small receiver should not be less than 30 feet. As the received energy varies directly as the height of an antenna, the higher the antenna the louder will be the signals or voice produced. The length of an antenna for short wave reception should not be less than 50 feet nor should it be longer than 200 feet. The minimum wave length to which a simple receiver can be adjusted for electrical resonance will be above that used by amateurs if the receiver be connected to an antenna 200 feet or more in length.

A simple radiophone receiver capable of picking up radiophone stations similar to KDKA at East Pittsburgh, can be assembled by a novice for from \$4 to \$15, depending upon the builder's ability to use his hands. If the builder will construct most of his apparatus he will appreciate it much more and probably will understand more about its operation than if he buys a set already made. However, for those who have not the ability or the time to spend constructing their own apparatus the following description will not only give the details as to the construction of each component part of a receiver but also what standard ready-made parts can be purchased and used in its stead.

The material can be purchased at any electrical supply store.

In erecting a simple antenna for use with the receiver shown in the diagram, the antenna proper and the lead-in are of stranded hard-drawn copper wire, strand No. 22, costing about 1 cent per foot. The two insulators are of molded material and can be purchased for about 25 cents each. The antenna shown is supported between a house and a pole. It may be found more convenient to support it between a tree and a house, two houses or even between two chimneys on the same house. In bringing down the lead-in wire should be taken that it is kept as far away from grounded material as possible and when bringing through the wall or under the window into the house it should be brought through some sort of an insulating tube, such as rubber or bakelite.

In making the ground connection the same kind of wire can be used as was purchased for the antenna. You can clean a section of the waterpipe thoroughly and solder the ground wire to it.

MAKING THE TUNER

To make a tuner for this receiver, the following raw material will be required:

- Piece of cardboard tubing three inches outside diameter and five inches long, costing about 10 cents.
- 100 feet No. 22 double cotton-covered magnet wire costing 25 cents.
- Standard slider (see sketch) for 1/4 by 1/4 brass rod, 40 cents.
- 1 six-inch length of 1/4 by 1/4 brass rod (square) 20 cents.
- 2 binding posts (see sketch) 20 cents.
- 2 circular blocks of wood whose diameter is just equal to the inside diameter of the piece of cardboard tubing and between 3-8 and 1-2 inch thick.

Some shellac or varnish is also required. Starting one-half inch from one end of the cardboard tube wind on the No. 22 D. C. C. wire within one-half inch of the other end of the tube. Fasten one end of the winding to the tube but allow some surplus wire on the other end for making a connection. After the winding is in place give it a coat of shellac or varnish to hold the turns in place. Assemble the circular-cut pieces of wood in the geometrical center of the square blocks and then shellac or varnish them for the appearance's sake.

When thoroughly dry slip the two end blocks into the wound tube and by means of a few finishing brads driven through the cardboard tube, fasten the end blocks to the wound tube. The slider is to be mounted on top of the coil and should be capable of making contact with any turn of the wire on the tube. In order to remove the insulation from the wire just under the rod where the slider moves back and forth, wrap a piece of sandpaper around a thin piece of wood and using another piece of wood as a guide, sandpaper the insulation from the winding. Drill a hole one-eighth inch in diameter through the slider rod about one-fourth inch in from each end so that the rod can be fastened by screws to the end blocks. After the slider rod is fastened in place see that the contact finger on the bottom of the slider can at all times make good contact with the winding. Mount a binding post on either end of the coil, attaching one by means of a wire to the slider rod and the other to the end of the wire wound on the tube and the tuner is complete. A tuner can be purchased

(Prepared by the United States Department of Agriculture.)

There is a general but erroneous belief that the cost of sewerage is little in the city, but almost prohibitive in the country. All personal and realty properties in a certain Eastern city average a valuation of \$10,382 per home, which pays \$355 for sewers outside the cellar wall. An average farm in a Middle Western state represents a valuation of \$17,259. Is not a farmer justified in the small outlay required to dispose of the farm sewage? Because of the issuance of bonds and the apportionment of sewer systems for a series of years, the city dweller may have his burden distributed over a long period. The farmer does not pay interest on these obligations, and sewer work can be done more cheaply in the country than in the city.

Not Merely a Fad.

Safe disposal of farm sewage is not a passing fad, but a vital necessity, cautions the United States Department of Agriculture. A good sewerage installation is an asset, because it greatly promotes the healthfulness and wholesomeness of the farm. Moreover, the benefits are far-reaching, because farm products go into every home, and farm and urban populations mingle freely. Before undertaking construction it is best to prepare a definite plan. Assistance and advice can be had from the local county agent. Such agencies as agricultural extension workers, state agricultural colleges, state and local boards of health, the United States public health service and the United States Department of Agriculture are all desirous of assisting the farmer who contemplates the installation of a satisfactory sewage disposal plant.

Size of Septic Tank.

The septic tank should be 50 to 100 or more feet from any dwelling and, if practicable, to the leeward of prevailing summer breezes. The sewage distribution field should be located downhill from any well or spring and, if possible, at least 300 feet from such water supplies. The disposal of all sewage should be through dry, porous, deeply drained ground. The distribution of the sewage in the land should be so apportioned that all of it is thoroughly absorbed and oxidized. Always lay sewers straight and below the reach of frost, ventilate them thoroughly and make the joints watertight and rootproof.

Avoid Cheap Methods.

Makeshift methods, materials or devices should be avoided, or used sparingly, according to Farmers' Bulletin 1227, Sewage and Sewerage of Farm Homes, recently issued by the United States Department of Agriculture. Vent pipes should never be placed in the tops of septic tanks or cesspools where they are near dwelling houses. In the construction of a sewage disposal plant, the siphon chamber and siphon may be omitted in those rare instances where it is feasible to discharge into salt water or into a large stream already badly polluted. Disposal of sewage in a running stream should be a last resort, as such practice endangers water supplies downstream, and unless the volume and velocity of flow are good such disposal may be very objectionable. After a sewage disposal plant is installed, it is necessary to inspect and clean it out at regular intervals. The settling chamber should be cleaned at least once a year. All pipe lines below the ground should be marked with iron or stone markers to facilitate examination, repair, or extension of the system.

Every farmer contemplating the installation of a sewage disposal plant should secure and study this bulletin, which can be obtained free of charge from the division of publications, United States Department of Agriculture, Washington.

STERILE SPIKELETS IN OATS

Yield is Sometimes Much Reduced Because of Condition—Too Much Moisture is Cause.

The yield of oats is sometimes much reduced because of the number of sterile spikelets in the heads, and because of the frequent occurrence of this condition the United States Department of Agriculture conducted a number of experiments to find the cause and, possibly, a remedy. The results are given in Department Bulletin 1068, Sterility of Oats, a professional paper by Charlotte Elliott.

It was at first thought that the number of sterile spikelets had some relation to the amount of halo blight

in the field, but the experiments did not bear out the belief. The amount of sterility seems to vary with different varieties during the same season under similar conditions. Too much moisture about the developing heads is believed to be the cause, due to rains falling about the time the oats sheaths are ready to open. The author suggests that if further experiments show that year after year certain varieties suffer more from sterility than others, as appears to be the case, they may be discarded and harder ones grown.

The bulletin may be had by addressing the Superintendent of Public Documents, Washington, enclosing 10 cents.

ALFALFA IS BIG MONEY CROP

Increases Number of Animals That Can Be Carried on Farm and Enriches Soil.

The great benefits from alfalfa include the increasing of the number of live stock that can be carried on the farm; lowering the cost of feeding; and improving the land for following cultivated and small grain crops. In addition to these advantages, alfalfa is one of the best money crops that can be grown under present conditions. From three to five tons of hay per acre can be expected from a good stand. At present prices for alfalfa hay, it is doubtful if any other general field crop can show as large a net profit per acre as alfalfa during the past year.

YEARLY COST OF RAT

The Department of Agriculture figures that it costs \$1.82 to keep a rat for a year. That looks high, but if we lop off the dollar the rat is still an expensive luxury. The 82 cents would pay big interest on money in rat-proof cribs and bins.

ETERNAL PROTECTION:—The Lord shall preserve thy going out and thy coming in from this time forth, and even for evermore.—Psalm 121: 8.

Tuesday.

KINGDOM IS WITHIN:—Neither shall they say, Lo here; or, lo there; for behold the kingdom of God is within you.—Luke 17: 21.

Wednesday.

GOD IS GRACIOUS:—Thou art a God ready to pardon, gracious and merciful, slow to anger, and of great kindness.—Nehemiah 9: 17.

Thursday.

HOW TO GAIN ALL:—Seek ye first the kingdom of God and his righteousness; and all these things shall be added unto you.—Matthew 6: 33.

Friday.

SAFE FROM ALL EVIL:—The Lord shall preserve thee from all evil: he shall preserve thy soul.—Psalm 121: 7.

Saturday.

SELF-PRaise:—Let another man praise thee, and not thine own mouth; a stranger, and not thine own lips.—Proverbs 27: 2.

Editorials First—News Next.

In China, the editorials appear on the front page, as they are considered the most important part of the paper. The rest of the news follows in order of importance—legal and government news, telegraph news, local news, and finally advertisements. The advertisements are not scattered through the paper, but are bunched on the last few pages.

The officials are very careful of what comes out in the newspapers. If an editor wishes to remain in business he must see to it that nothing adverse to the present administration appears.

A clean back yard delighteth the eyes of the passers.

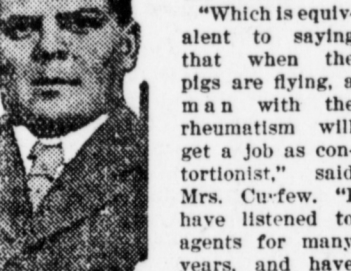

Good manners are a key that unlocks many doors.

When going over Paint Hill remember all that goes up must come down.

THE USE OF SICKNESS

HERE is the most wonderful book ever offered the public," said the agent with enthusiasm. "It is entitled 'Psychology and Disease,' and every page has an astounding revelation. When this book is universally read and understood, there won't be any disease in the world."

"Which is equivalent to saying that when the pigs are flying, a man with the rheumatism will get a job as a confectionist," said Mrs. Cu-few. "I have listened to agents for many years, and have heard all kinds of silly talk, but yours is the worst yet. You can't convince me that the day will ever come when a man with the jumping rheumatism, such as my husband is afflicted with, can sit down and cure himself by reading a book, even if the book is endorsed by congressmen and justices of the peace and other dignitaries without number."

"If disease ever is banished from the world, I have no doubt that something worse will come to take its place. I believe that everything in this world is here for a good purpose, even if it doesn't look that way at first glance."

"Early this spring there was an epidemic of measles in this neighborhood, and of course my little granddaughter had to come to visit me. She never comes when the health conditions are all that could be desired, but just as sure as there is smallpox or seven year itch or some other contagious disease rampant, that angel child comes to spend a few days with her beloved grandmother, and she catches everything there is going."

"She hadn't been here two days before she was down sick. She had more measles than I ever saw in one collection before, and her face was a sight to be seen. I was inclined to murmur and repine, for I was just done with my housecleaning and was so tired I felt as though I'd like to lie down and sleep for six months, and there I was with a sick child in the house, and I was to be up night and day seeing that she didn't catch cold, for if a child catches cold when she has that disease, some of the measles are sure to strike in, and then she goes blind or loses her hearing or becomes an idiot."

"I was complaining to Mr. Curfew and saying harsh, bitter things, when a boy came to the door with a telegram. It was from Cousin Susan, and she said she was coming on the night train with her three children to spend a week with me. She invites herself that way about once a year, and I always dread her coming, for her children are holy terrors, and there is no peace where they are."

approaches the house. Of course I didn't use exactly those words, but that was the meaning of my dispatch, and Cousin Susan had to take her offspring and unload them on her Aunt Maria, who had never suffered a visitation of that sort before.

"This shows that diseases have their use, and even a few measles in the house are a wellspring of pleasure, when we regard them properly, with a determination to realize our blessings. So I have no use for any book that shows how to abolish diseases, and now must disperse, for I have a hundred things to do."

DISHMAN SPRINGS DANCE

Herman Parker Henry Cole, Austin Johnson and Charles Bingham were hosts at a dance at Dishman Springs Monday night at which fifty couples attended from Barbourville, Corbin, Pineville, Middleboro and London. The guests first partook of an excellent supper during which the Williams Orchestra, of Lexington played. Dancing was enjoyed until midnight when a lunch was served, dancing being resumed until 2 a.m. when the party broke up after thanking the hosts for a very pleasant evening.

SHERIFF NIPS PLOT FOR JAIL DELIVERY

MANCHESTER, KY., May 26.—Plans leading to the escape of prisoners from the county jail were foiled here today by Jailer Joe Lewis and deputies. Several saws were found in the rooms occupied by J. M. Jones, Chester Ramsey and the Jackson brothers. They had also taken the weights from the windows with which to defend themselves in the event that they should be discovered in their attempt to escape. Ramsey has escaped from the jail several times heretofore.

All the men are serving long sentences. The fines of Jones are said to aggregate almost two years.

At present there are about sixty prisoners in jail as a result of Judge Johnson's clean-up campaign.—The Louisville Herald.

OLD VETERAN VISITS SOUTHERN BATTLEFIELDS

Saturday of last week a party composed of E. L. Raff, H. R. Boudnot, Misses Helen Cross, Clara Schiele and Ambrose Clayton, all of Davenport, Iowa, came thru Barbourville on their way home from Chattanooga, Tenn. They reported rough sledding for ten miles and had to stay over night at a farm house, due to the fact that the road is being worked along the route of the National Highway.

Mr. Raff is an old veteran who was anxious to visit the scenes of former battles and he and the party with him took in all the historic places of interest during their three weeks' tour, which they enjoyed greatly.

DEWITT NEWS May 18.

J. N. Lester is improving following blood poisoning.—The baby of Dave Bingham, ill for some weeks, is now improving.—James Lester reports a good time while in Cincinnati.—Amanda Smith and Carrie Mills were guests of Martha Carnes Sunday.—A cow of James Lester is mothering twin calves, a male and a heifer.—Carnie Mills and Arthur Carnes are doing fine farming this year.—Col. Bingham is on the sick list this week.— Violet Blue.

Cut of 10% on freight rates has been ordered by the Interstate Department.

Those British aviators who are making a trip around the world will probably be accused by Bro. Hearst of snooping around to see if they can find any unclaimed rock or island to add to the empire.

As soon as the National Highway now being graded, is finished the sight of tourists from afar will not create a ripple of interest as they will be as thick as blackberries.

Marine Glue.

Marine glue is prepared by dissolving one part of India rubber in crude benzine and mixing with two parts of shellac, by the aid of heat. The waterproof character of this cement in connection with its elastic flexibility makes it a useful substance in many applications to house construction and to furniture. This glue is applied with ease when warm, and cools with promptness. It was originally intended to be used chiefly on board ship and is well known in Europe.
